[Why Do I Get Error Messages For My Yahoo Email In Outlook Mac](#)

I would like to manage deleting myself manually I could not find the option to choose not to delete emails from server in this Outlook/Yahoo account set up.. We recommend ESPs ensure all messages can be authenticated by DKIM and/or SPF Re: Outlook 2013 Client Cannot Receive Yahoo Mail Same problem.

By publishing a 'p=reject' record, Yahoo tells other DMARC compliant systems to reject mail that doesn't originate from a Yahoo server.. An industry wide increase in email forgery prompted this change Forged emails appear to be sent from a legitimate Yahoo email address even though they aren't, and are used to spread spam and other types of malicious phishing scams.

To protect our users from these threats, we've has taken the lead to secure emails by enforcing the new DMARC policy.. It's not recommended to use a customer's personal domain To receive responses with an '@yahoo.. I did get a new email in Outlook from my Yahoo Inbox I hope that no emails get deleted from my Yahoo account, after they are downloaded to Outlook.. I'm not sure when I stopped receiving emails on my client service (Outlook 2016 and Windows Live Mail), but it's been at least a week.
